

# Supplement Fig S2C table-derived panel

Table-only source rendered as a clean panel-package preview.

Figure: Supplement Fig S2

Panel: C | Module: 12A

Content: C claim-boundary detail

| category   | statement                                  | manuscript_location    |
|------------|--------------------------------------------|------------------------|
| allowed    | DA neuron / graft-related transcriptomic c | Title/Abstract/Results |
| allowed    | Evidence-anchored prioritisation across ML | Results/Discussion     |
| allowed    | Candidate transcriptomic marker signatures | Results/Supplement     |
| allowed    | Risk/safety-context module support and sur | Results/Discussion     |
| allowed    | Limited PD genetic-context support as a co | Results/Limitations    |
| allowed    | Weak-label ML audit with internal ROC/PR p | Results/Supplement     |
| prohibited | Clinical prediction model                  | Do not use             |
| prohibited | PD diagnosis, prognosis or treatment-respo | Do not use             |
