

11E evidence audit: GSE200610 retained as state-level proxy support

Deep metadata audit found no strict barcode / clone / lineage column suitable for lineage-level association testing.

Allowed interpretation

- Transcriptomic state-level proxy support
- Conservative module-pattern evidence
- Downstream integration only as proxy support

Prohibited interpretation

- Barcode-level lineage tracing validation
- Clone-aware fate reconstruction
- Barcode-confirmed graft-state transition

Final status: FINAL_LOCKED_11E_AS_GSE200610_TRANSCRIPTOMIC_STATE_LEVEL_PROXY_SUPPORT
