

Supplementary figure legend map

Supplement legends retain source–detail, proxy and audit boundaries.

Supplement Fig S1

Dataset–domain and source–role manifest

panels: 3 | Source/domain supplement

Supplement Fig S10

Weak–label machine–learning performance and feature–transparency audit

panels: 3 | 11J supplement

Supplement Fig S2

Dependency and source–panel traceability package

panels: 3 | Dependency supplement

Supplement Fig S3

Object processing, QC and atlas–level technical support

panels: 3 | QC/object supplement

Supplement Fig S4

Preclinical graft–outcome marker support

panels: 3 | 11C supplement

Supplement Fig S5

Projection–associated molecular competence support

panels: 3 | 11F supplement

Supplement Fig S6

State–level proxy support for transcriptomic cell–state heterogeneity

panels: 3 | 11E supplement

Supplement Fig S7

Survival/stress perturbation and safety–risk context support

panels: 3 | 11D supplement

Supplement Fig S8

Limited PD genetic–context support

panels: 3 | 11G supplement

Supplement Fig S9

Candidate transcriptomic marker–signature support

panels: 3 | 11H supplement
